

Winners of NASA SPACE APP challenge

NASA SPACE APP challenge was conducted on 2nd and 3rd October 2021 in online mode and 2600 teams participated across the world. In India, around 120 teams participated and there were 29 different problem statements given to these teams.

AURCT CSE second year students Mr. Dominic Walter & Ms. Deepti participated and won first prize in this Hackathon. They developed web and mobile applications for interactive, real time analysis of the lunar mission data for the broader scientific community. Dean and HOD congratulated the winners for their achievements.
